

CERTIFICATION OF CLOSURE OF RF-1

November 8, 2019

This document evidences the completion of the closure of the former RF-1 Unit at the Evoqua Water Technologies LLC carbon reactivation facility located at 2523 Mutahar Street in Parker, Arizona.

Closure of the RF-1 Unit was conducted on site during August and September, 2019, in accordance with the RF-1 Unit Closure Plan (Appendix XVI of the facility's Resource Conservation and Recovery Act (RCRA) permit).

Closure activities included demolition, decontamination of process equipment, evaluation of decontamination results in accordance with the Closure Activities Sampling and Analysis Plan and Closure Activities Quality Assurance Project Plan (Appendix XVII of the facility's RCRA permit), and transport and disposition of wastes. Closure was conducted by Geosyntec Consultants, Inc. under contract to Evoqua Water Technologies LLC, the owner and operator of the facility. Subcontractors assisting Geosyntec on the closure work included Overlay's Environmental and Industrial Services, Durus Industrial, LLC, Marco Crane and Rigging Company and Safeguard Services of Arizona, LLC.

Pursuant to 40 CFR 264.115 and Evoqua RCRA permit condition II.N.7, the undersigned certify that, to the best of their knowledge, the closure of the former RF-1 Unit occurred in accordance with 40 CFR § 264.115, the specifications of the RF-1 Unit Closure Plan, and Evoqua RCRA permit Attachment Section I, Appendix XV and Appendix XVI.
